BIO: JOSEPH J. BUTKIEWICZ III

Joseph “Joe” Butkiewicz comes to ACE, LLC. SOLAR as our General Sales Manager. He has more than 15 years of professional sales and operations management experience. He entered the solar photovoltaic (PV) industry with a German-based PV components manufacturer and distributor. He immediately began developing in-depth knowledge of both the physical components and financial products related to solar PV. Most recently, Joe served as Head of Corporate Development for Tier 1 solar module manufacturer, and ACE, LLC. SOLAR partner, ReneSola. During his years with ReneSola, Joe hired, trained and managed three separate sales teams focused on both solar PV and LED lighting. He also held the responsibility of managing all ReneSola brand and 3rd-party branded solar products for the USA market.

Born in Wellington, New Zealand, and raised in Phoenix, AZ, Joe studied Business Administration at Northern Arizona University in 2004 and achieved his MBA at the University of Colorado in 2011.

As an athlete and experienced traveler, when he is not working you might find Joe on the softball field or behind a computer planning his next trip. Joe and his son Cole currently reside in Giles County, Tennessee with his wife-to-be, Michelle.
