

BIO: JUSTIN GVOZDAS

Justin comes to ACE, LLC SOLAR with six years of experience as a Photovoltaic Installer. His career began in 2009 while attending trade school and led to a job offer prior to graduation. He began as an intern and upon completion of a 96 panel roof mount, he became a full-time installer.

Justin graduated from the Tennessee College of Applied Technology at Pulaski and received his LLE, Entry Level NABCEP certificate, and graduated first in his class with a diploma for Photovoltaic Technician & Installer.

Justin & his wife Felicia live in Prospect, Tennessee with their daughter. They are very involved with homesteading, homeopathy and caring for planet Earth. Justin enjoys all genres of music, theatre and all forms of artistic expression. He is a local volunteer soccer trainer and was an Olympic Development Player until becoming a collegiate athlete. He currently enjoys hiking, camping, waterfalls and meditation using various forms of crystal therapy.

Justin believes that Solar is secretly dominating the Green Energy market. Announcing to the public the benefits of our Sun becoming is visible across the globe. Fossil fuels are beginning to expire and become more expensive. Solar's inverted method of this concept has benefited lives in multiple countries and across the U.S.A. Warriors of the Rainbow are here to save the humans.

ACE, LLC SOLAR proudly welcomes Justin to our team.
