To Whom It May Concern,

This letter is to reference the workmanship and customer service focus of Ace Solar, LLC. Chuck Boggs and his team installed a new solar panel system for our newly renovated office in downtown Pulaski, Tennessee. We are thoroughly pleased with the service their team provided us; not only did they install our solar panel system, they also installed our wiring network. In addition to completely handling all of the aspects of installation, they also helped us apply for a grant for our solar installation; as we were the first in Giles County to implement the use of solar panels in our business operations.

Throughout the project, the Ace Solar, LLC team was very respectful of our property and staff. At the end of the work day, there was always a genuine effort to clean up the work space. Ace Solar, LLC completed the project in a timely manner and ensured that everything was done correctly. They also assisted us through the inspection process to ensure that we passed our inspection. After the installation was complete, Chuck and his team meticulously checked the solar panels' collections and usage to ensure that everything was correct and that I was being debited and credited properly through Pulaski Electric System.

We are truly satisfied with the quality work and follow up efforts that Chuck and his team have provided us throughout the entire process. My team and I would certainly recommend Ace Solar, LLC to any of our friends, family and colleagues. Chuck is honest, sincere and can be depended on.

If you have any questions, please feel free to contact me at 901-881-0862.

Sincerely,

A handwritten signature in black ink, appearing to read 'Adam Reeves', is written over a horizontal line.
